PROFESSIONAL SUMMARY

Generative AI & Machine Learning Engineer with 1.9+ years of production experience designing autonomous agent architectures, multimodal RAG systems, and enterprise process automation. Hands-on with open-source LLM fine-tuning (LoRA/QLoRA), MCP toolchains, LangChain and LangGraph workflows, and high-throughput inference on Azure and GCP.

TECHNICAL SKILLS

GenAI & LLMs: LangChain, LangGraph, CrewAI, MCP, RAG, prompt engineering, function calling, PEFT/LoRA, Ragas, NeMo Guardrails
AI / ML: PyTorch, TensorFlow, Hugging Face, Transformers, scikit-learn, CNNs, RNNs, statistical modeling, spaCy, NLTK
Retrieval: ChromaDB, FAISS, Pinecone, PostgreSQL/pgvector, hybrid search, semantic reranking
Backend & cloud: Python, FastAPI, Flask, Node.js, WebSockets, REST APIs, GCP Cloud Run, Azure AI Foundry, Docker, Kubernetes, CI/CD

PROFESSIONAL EXPERIENCE

LTIMindtree / Technical Consultant, AI & GenAI Solutions

Dec 2024 – Present · India

- Built AI-powered workflow automations with Copilot Studio, Power Automate, and Azure Functions, connecting emails, documents, SharePoint, and web sources to reduce manual effort and operational overhead.
- Developed a real-time LangChain, GPT-4, and ChromaDB retrieval system over WebSockets, bringing grounded answers into enterprise workflows on GCP Cloud Run.
- Built SAP IDOC diagnosis and resolution with human approval gates, dynamic retries, and Azure Communication Services alerts.
- Applied semantic caching and prompt optimization to reduce redundant model calls and manage inference costs.

SELECTED TECHNICAL PROJECTS

Autonomous multi-agent enterprise research analyst

LangGraph, MCP, ChromaDB, Claude/GPT-4, FastAPI. Built stateful Planner, Code-Execution, and Reviewer agents with PostgreSQL checkpoints; secure MCP servers and Ragas benchmarks reached 96% hallucination resistance.

Domain-specific LLM fine-tuning & quantized serving

Fine-tuned Llama 3 (8B) and Mistral (7B) with 4-bit QLoRA, raising domain terminology accuracy by 28%. vLLM serving on Kubernetes delivered 3.2× throughput over naive inference.

MCP-based natural-language-to-SQL analytics

Created a FastMCP and Gemini translation engine for sanitized PostgreSQL queries, with AST-based read-only validation; reduced reporting turnaround by 75%.

Intelligent healthcare report analysis

Built a CrewAI, FAISS, PyMuPDF, and LangChain pipeline that parsed lab reports with 98% extraction accuracy and generated recommendations trialed across 500+ records.

AWARDS & CERTIFICATIONS

Best AI Initiative — EzCredit · Outcreator · June 2026

Recognized for EzCredit, developed by the EUROPE SAP team as L'Oréal's first SAP GenAI solution in production, automating credit decisions through real-time AI analysis.

SAP Certified GenAI Developer — View verified credential

EDUCATION

B.E. in Artificial Intelligence and Data Science · CGPA 8.45/10

DY Patil College of Engineering, Akurdi · Jun 2024 · India
